

Come and Go With Me

All:

Come and go with me
To my Father's house, to my father's house.
Come and go with me
To my father's house, to my father's house.

They'll be no cryin' there
They'll be no diein' there.

Come and go with me
To my father's house, to my father's house

Solo:

In my father's house
There are many mansions there
If they were not true
You know I would have told you so

I'm goin' to prepare a place for you
And where I go, you can come too
Come and go with me to my father's house
To my father's house
